## **Work At Home Vintage Experts Signs Two More State Association Partnership Agreements**

### ***34 State Groups Now Offer Remote Staff Services to Their Membership***

LAS VEGAS (February 14, 2023) – Work At Home Vintage Experts (WAHVE) is honored to announce that the company has entered into partnership agreements with two more state associations – Virginia and Minnesota Associations for Independent Agents (Big I) – bringing our total partnership agreements to 34.

The Virginia and Minnesota Big I partnerships come on the heels of similar partnership agreements between WAHVE and New Mexico and Oregon Big I associations, which were signed at the end of 2022.

The partnership agreements give Big I members in those states preferred access to WAHVE's distinctive insurance staffing solutions. As a contract staffing firm, WAHVE matches insurance organizations with retiring and "pretiring" insurance industry professionals in part-time or full-time positions. Brokers, agencies and a host of insurance industry organizations can re-engage insurance industry veterans with deep expertise in work-from-home positions.

"Finding and keeping knowledgeable and experience staff remains a key challenge for insurance firms," says Sharon Emek, Ph.D., CIC, WAHVE founder and CEO. "We are thrilled to be working with our state association partners to provide their members with a proven staffing solution."

"Big I partner organizations are now able to take advantage of WAHVE's in-depth candidate matching and screening process," says Bill Hunt, president and chief revenue officer for WAHVE. "Our Brainwahve proprietary platform identifies right-fit candidates that fit an organization's position, needs, and most of all, corporate culture. Our process has helped client companies realize an exceptionally high level of success."

**About WAHVE:** WAHVE ([www.wahve.com](http://www.wahve.com)) powers the delivery of talent and technology to the insurance industry. Our Work At Home Vintage Experts contract staffing talent solution pairs insurance organizations with pretiring, highly skilled insurance professionals in work-from-home positions. Our Brainwahve intuitive technology platform streamlines the candidate qualifying process and manages the recruitment lifecycle to recruit/retain the most qualified, diverse candidates.
